

## CATAMARAN

**01SC725**

The ideal knife for all those who spend as much of their life or their free time as possible on the open sea. The partially serrated sheepfoot blade from 440A steel easily slices through ropes, lines, or nets. The lockable marlin spike dramatically simplifies loosening tight knits. A shackle opener is mounted on the handle scales of this sailor's knife. A lanyard hole protects the knife against an involuntary dive to the bottom.

**TYPE:** Pocket Knife
